GENNY LOU D. DIAZ

Quality Assurance Tester | Application Developer
09453128543 • diazgennylou@gmail.com • gennyloudiaz • Talon Kuatro, Las Pinas City

Summary

A Highly Experienced Manual QA Tester for 6yrs with Application developer. Proficient in QA web, desktop, mobile, browsers, and Testing environments. Worked and collaborated with cross-departments to understand the client's specific requirements and goals of Users. Knowledge in UAT, Regression, API Testing, Automation, Agile Methodology, RoR, Javascript, Typescript, PHP, SQL, CMS, DevOps Azure, UI/UX Specialist. Handled back-end validation, Database, and Test Creation, Test Scripting. Collaborate with IT teams and clients, that can drive team effectiveness of the project.

Experience

Bank of the Philippines — Makati, Philippines
Junior Quality Assurance Tester — 05/2025 – 06/2026

- **Financial Systems Testing:** Execute **end-to-end manual**, **functional**, and regression testing for high-security banking applications, ensuring 100% compliance with strict financial data integrity.
- **UAT Management:** Led defect reporting and meticulous re-testing cycles during **User Acceptance Testing (UAT),** ensuring all critical risks were addressed before production deployment.
- **Test Operations & Reporting:** Manage daily status reporting for the full testing lifecycle, including **Test Case Creation**, **Scripting**, and **UAT execution**.

Alorica Alabang — Alabang, Philippines
Customer Service Representative — 10/2024 – 01/2025

- Answered 10+ voice call per hour, customer representative.
- Provide customer support and resolve product or service issues, including communication, database updates, reporting, and follow-up.
- Take customer calls and provide accurate data and satisfactory answers to their queries and concerns.

Huawei Philippines — Taguig City, Philippines
QA Operations & Ecosystem specialist — 05/2022 - 05/2024

- **Ecosystems and Operations** : Overall led the end-to-end QA lifecycle for the Huawei AppGallery; ensured that the integration and stability of 2,000+ applications meet global ecosystem standards
- **Technical Liaison:** Served as the primary technical contact between local enterprise partners (ex: Home Credit) and developers in China at HQ; resolved critical blockers for the Payment API, OAuth/Login, and Push Notifications
- **Lead Device Department:** Led all application testing; including monthly regression, usability, and performance audits for the Device Department; performed all testing of 20+ Mobile and Table Devices
- **KPI and Compliance Reports:** Developed reports on NSS (Net Satisfaction Score) and KPIs with an 80% reporting efficiency and led periodic audits to ensure 100% compliance with government-mandated industry regulations
- **Test Collaboration Across Multiple Functional Areas:** Worked with manual and automated teams to perform high-impact regression, smoke, and API testing for Integrated banking applications; utilized DevAzure tools to validate on-going quality assurance across multiple platforms
- **User Experience and Business Analysis:** Partnered with Business Analysts to create a working model of complex user workflows, troubleshoot issues, and run User Experience Journey campaigns to promote ecosystem adoption
- **Multimedia Design Documentation:** Used my Multimedia Design background to relate complex Technical Bugs into high-fidelity visual reports and SOPs accordingly thus greatly reducing the 'resolution time' between Local and International Developers within Operations
- **Stakeholder Training:** Authored and delivered technical training programs for Sales and Customer Service units, standardizing troubleshooting protocols for HMS (Huawei Mobile Services).

Directories of the Philippines — Makati City, Philippines
Application Developer — 01/2020 - 07/2022

- **Robust infrastructure for high-traffic ad platforms:** Implemented and maintained a large-scale Ruby on Rails infrastructure through use of MVC architecture-based structures. Achieved 99.9% uptime while rapidly scaling multiple times.
- **Backend security & Data integrity enhancement:** Enhanced backend security & data integrity through use of regex validations for strong email validation logic.
- **Continuous Improvement Pipeline Optimized:** Continuous improvement pipeline was optimized for an agile/scrum environment, using Ubuntu, Git/GitLab and CMS Solutions for rapid deployment of production code.

One Hundred Services Inc. & DPC — Makati City, Philippines
Technical quality assurance and product support — 07/2019 - 03/2020

- **Strategic Test Engineering:** Authored and maintained comprehensive test plans, scripts, and high-coverage test cases for multi-platform environments including iOS, Android, and cross-browser web applications.
- **Quality Metrics & Governance:** Developed and monitored project enhancement metrics using Redmine, ensuring software quality aligned with sprint goals and industry standards.
- **Cross-Functional Leadership:** Collaborated with Department Heads to conduct Training Needs Analysis (TNA), bridging the gap between technical QA results and organizational skill development.
- **Ecosystem Testing:** Provided subject matter expertise in Quality Monitoring tools and CMS platforms to perform deep-dive usability and performance testing on mobile and web assets.

Arellano University - Apolinario Mabini — Pasay City, Philippines
Information Communication Teacher and ABM Adviser — 07/2018 - 07/2019

- Instructed Media Information Literacy, Graphic Design, Basic HTML/CSS, Basic Animation (Photoshop & Adobe Flash)
